

INKTEC EUROPE

ENVIRONMENTAL STATEMENT

InkTec is committed to its environmental responsibility and is dedicated to operating in a sustainable manner.

Our business operation is ISO 14001 accredited and holds several internationally recognised accreditations.

It is our commitment to minimise the impact on the environment and prevent pollution caused by our business activities.

Our commitment is to:

- Demonstrate compliance with all environmental legislation.
- Actively engage with our stakeholders to ensure effective communication of our environmental policy and initiatives.
- Work together with our stakeholders to improve environmental awareness and understanding.
- Manage our generated waste to incorporate reduce, reuse, and recycle principles.
- Manage a continued programme of improvement and monitor our performance.
- Give environmental consideration and energy performance when making acquisitions, refurbishments, and location of buildings.
- Promote environmentally responsible products and purchasing where possible.
- Continuously strive to improve our environmental performance and integrate environmental awareness and improvement into our business operations.
- Review our policy regularly.
