

## Looking to start a new career?

Do you have practical skills and a determination to solve problems?

Do you have a keen interest in mechanical operations and an attitude to learn?

Are you positive and professional in your outlook?

If this sounds like you then we have an opening for a **Trainee Field Service Technician** to join our team and be fully supported with all the necessary training and tools to carry out the job confidently.

## Who are we?

InkTec are a leading manufacturer and retailer of large format printers, DTF printers, inks and media for the print industry.

We are a small friendly team based in Witney, West Oxfordshire and are looking to recruit a new equally friendly team member to support our machine range on site and out in the field.

## What's the job?

- You will be fully trained to install, operate and offer technical support on our machine range.
- You will learn how to complete site surveys and generate service reports.
- Building positive relationships with customers.
- Developing towards providing operator training post installation
- Developing towards off site remote support.
- Developing towards representing the company in the field and at exhibitions.

## About you.

- Willingness to travel throughout the UK with the ability to drive and meet other Technicians in the first few months for training.
  - Able to demonstrate some good practical hands-on experience in a discipline that you feel is relevant. with some suitable experience of using tools.
  - Reliable and able to manage time and work efficiently and productively.
  - Excellent communication and interpersonal skills
  - Good level of IT skill
  - Able to work under pressure and handle enquiries in a calm and efficient manner.
- 
- Starting salary £24,000 depending on experience.
  - Private Health care scheme
  - Christmas closure
  - Gym allowance
  - Vehicle and equipment provided.

Feel free to give us a call if you would like an informal chat about the position.

Full-time, Permanent Salary: From £24,000.00 per year
